TOWN OF SOLON

Demolition Debris, Bulky Waste and Construction Material Disposal Policy

Small quantities of acceptable demolition materials, bulky waste and construction materials (such as those resulting from minor homeowner projects) may be disposed of at the Solon Transfer Station. The Transfer Station attendant will collect a fee for the debris according to the fee schedule set by the Selectmen. Any acceptable demolition debris must fit suitably in the collection container. Panels must not exceed 4' by 8'. The attendant has the authority to refuse debris based upon content or quantity.

Disposal of large quantities or unacceptable types of demolition debris, bulky waste or construction materials (such as those resulting from building construction or demolition or major renovation projects) is the responsibility of the individual and may not be disposed of at the Solon Transfer Station. The Town of Solon will not pay for container leases, transportation costs or tipping fees for demolition debris resulting from a building demolition or renovation project.
